PROJECT SUN STREAK (U)

Session Procedures Report

FORMAT

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

Control Number: 'OTHER D'

Nickname:

Date of Session: 7 JUL 86

Target Country:

References:

Session Number: 1

Date of Report: 15 JUL 86

Mission Status:

Technique Utilized: CRV

Source Identifier: RV-003

1. (S/NF/SK) TASKING: The following ~~info~~ instructions ^{recounts 0.99} were provided the monitor ~~data~~ info

SG1A ⁴: A)

(B)

c) ~~By~~ Amplifying instructions: none

2. (S/NF/SK) Session: Coordinates were encrypted in the usual manner. A significant problem became apparent early in the session, to wit, the only good reference point ^(steering) was ~~psychically~~ ^{psychically} similar to the target, ~~which~~ ^(domed structure). Consequently, some confusion on the part (in the ~~source~~ mind) of the monitor overlaid the session.

3. (S/NF/SK) Summary: ~~Hand~~ Site is a land/structure/water interface. Several structures are present; ~~all~~ some are rounded. One structure is long, wide, deep (below ground level), open at the top but, perhaps, can be covered over. Something is constructed in this "bay" structure ~~which~~ ^{that} is very large, has many rounded surfaces and which, when ~~completed~~ ^{completed}, is ~~moved~~ ^{constantly} out ponderously ~~off~~ into water. ~~See~~ ^A strong association is present of a drydock ~~area~~ and a ship or submarine.

4. (S/NF/SK) Feedback: ~~During discussion with ops~~ ^{During discussion with ops} officer, monitor suggested that data regarding ~~bay~~ ^{sub construction} bay was probably AOL drive. Ops officer agreed and requested source rework the target.
